

PSLBG Rose Garden Work Day

October 26, 2022

Port St. Lucie Botanical Gardens

Trimming spent roses, brown or yellow leaves, picking up fallen petals, weeding, aerating the soil with rakes, trimming pentas, spraying fungicide to prevent black spot, trimming horizontal branches, tidying vines on the moon gates, sweeping & cleaning the whole Rose Garden Room. It looked simply marvelous when we finished. The star in the crown of the PSLBG!
